Explorer Post 1010
Rules of the Road

Behavior

- We are guests, it is not your school or your home.
- No running, no yelling.
- Limit food in makerspace and storefront, remove all cups, left-over food.
- If you drop something, pick it up, if you spill something clean it up.
- If you break something, fix it or at least tell a leader.
- Watch your language, the public is watching your behavior.
- Mentors and Science Center staff need to be respected.
- Know where the first aid kit and fire extinguisher are.
- Protect property and self when outside near Center/Makerspace.
- Evacuation meeting area – parking lot behind Fire Station.

Rooms

- Makerspace and Storefront are used for workshop activities such as building and testing – socializing and eating meals should be done in other areas.
- No Makerspace or Storefront entrance without adult leader present or exception.
- Clean up the work areas, nothing on the floor, push in chairs.
- Quarterly business meetings will be held in Science Center Storefront.

Projects

- Limit building on the test tables and arenas.
- Wear goggles when using power tools.
- Keep your projects in boxes, no tools or common resources in project boxes.
- Don't mess up common resources, put parts in proper containers, put tools in toolboxes, drawers, or shop table.
- Manage your project source files, use version ids in file names.

Teams

- Maintain an engineering notebook, cloud files, or website.
- Treat your teammates kindly.
- Listen before you talk.
- Communicate your plans and schedule with your team and Post leadership.
- Don't take stuff home unless you are sure you will be at the next session.

Computers/Devices/Batteries

- Disconnect project batteries, don’t leave on chargers.
- Turn off projectors/screens.
- Power off team computers and devices when done.
- Maintain your team computers, don't add a bunch of games, don't add/change passwords on any Post computers, don’t rearrange user interface.
